STATE WANTED - Cash paid for good LEVY BROTHERS,

1017 and 1019 Main street,

Thousands of travellers by land and sea have vouched for the efficacy of Hostetter's Stomach Eitters as a preventive of the physical disturbances which ordinarily arise from change of climate and the changes of clet, water. &c., incident to a wandering life. Upon systems toned, invigorated, and regulated by this genial vegetable antidote the external causes of dealthy and disease seem to pro duce little or no effect. Forearmed with Hostetter's Bitters, the voyager may bid defiance to sea-sickness and encounter the chilling fogs of the British Isles, the coast winds of the Antilles, the icy temperature of northern Alaska, or the burning heat of the tropics with equal impunity. The effect of this admirable medicated stimulant is greatly to increase the vital energy of the system, thereby enabling it to resist and repel the exciting causes of disease au 13-deod&wlw

ATTEMPTED ROBBERY .- A bold attempt at robbery was made at Mr. R. W. Carter's residence, on Pine street, yesterday morning. Mr. Carter is the well-known treasurer of a benevolent association, and was no doubt supposed to have had a very considerable amount of money in his possession. One or more thieves entered his chamber at an early hour and chloroformed him and his wife while they were sleeping, and then proceeded to ransack the house. Not finding what they were in search of, they went away without disturbing anything. Mr. and Mrs. Carter were made quite sick by the chloroform, but were not in anywise seriously injured.

large cooper-shops contiguous to the waterline-one engaged in filling orders for the Old Dominion Iron and Nail-Works and the other for the flour-mills. As these establishments employ a large capital, and furnish employment to a number

of our people, it is a pleasure to record the tact of their presperity during the present season, and hope for a still greater success in time to come. OTHER MANUFACTORIES .- At Belle Island. thus far, only the nail and plate factories are

at work, but hopes are entertained of a re-

sumption of operations in full in a very short time. The building and repair-shops of both the Richmond and Danville and Richmond and Petersburg railroads are located in this city. and both establishments are busy at this time in refitting and building engines and passenger and freight coaches, and the work done is equal to any turned out in nortbern cities. PERSONAL. KICHMOND, August 12, 1874.

TO THE RICHMOND CHAMBER OF COMMERCE,—Since 1866 I have been cared in the bark business, and I have never shed less than 150 car loads in any one year, w ped less than 150 car loads in any one year, wing in some years my shioments have gone up to 450 car loads. My bark mill is in Lynchburg, and I ob-talu my bark mostly from the line of the Atlantic, Mississippi and Ohio road, east of that city. I must say that General Mahone was the first man that resay that General Mahone was the first man that reduced the freight on toat article. One carl intended also to ship by the canal, but finding that the toll, without freight, was more to Klehmond for same amount of infles than on the Southside road to City Point. I consequently remained on Mahone's road. The next year I made another attempt to ship through your port. I went to the Richmond and a nyille railroad. Their tariff was higher from Burkesville to Richmond than it was from Farmville. From Keysville I could better afford to wagon my bark to Rice's station and give a team good pay. I remained on Mahone's road, but next year I found Colonel Talcott in office as superintendent of the Danville road, and he give me some better chance, and since then I had no trouble except that slong the railroad from Charlotts to atnext year fround Colonel throat mome as super-intendent of the Danville road, and he gave me some better chance, and since then I had no trouble except that since the railroad from Charlotte to at-anta is finished the line has grown 960 yards too long for my purpose. My freight reaches the Man-chester station at 5 P. M., and will get to the comchester station at 5 P. M., and will get to the company's wharf, opposite Rocketts, some 900 yards distant from the station, about 2 P. M. the next day, if it has good lack and nothing happens.

I would be glad if the Chamber of Commerce wood see the Danville Rallroad company and get them either to move their road 900 yards further this side in Atlanta, or they will move their wharves 900 yards further up. I believe it is the farthest the present parties can in see it move. Hotend to continue to work on the Atlantic, Mississippi and ohio road, and would like to ship through this city, which road, and would like to ship through this city, which I intend to make my future home. I can at the present time ship mybark from Amelia Courthouse to Lynchburg, and reship it to any point east on Mahone's road, as cheap as if I brought it directly to this city. This seems strange, but it is owing to nothing else than that is a corporation owned and operated for the inhabitants by our home pecide,

and by no Scott and Huntington.

From a career of seven years in business I think it far more beneficial to look into the carriage of oroduce and beavy freights which may be brought o Virginia markets, than for your chamber of Commerce of this metropolis to give yourselves so much un asiness about the Adams Express commuch une asines about the Adams Express Company. It seems to me that some one of the Disspatch must have had his kinfolks in the mountains and wanted to send a watermellon without pre-paying treight to them. I have sent many thousands of dollars this season to stations on the Atlantic, Mississippi and Ohlo road without finding any difficulty, but I pre-paid the freight as far as the Adams Express reached towards its destination. So far as the Express is concerned I have never encountered any trouble.

Even when I was shipping over the Southside road I was opposed to consolidation, which I now have the pleasure to say I was wrong in.

I am, most respectfully,
